

Buildings 9-12 Sinkhole Repair has started.

All furniture and belongings must be removed from the downstairs unit patios. IF you have an enclosed porch, you must leave it unlocked during the daytime for the Engineers to access. YOU WILL have a Pin put under your porch. YOU WILL have your patio cement/tile disrupted. IT WILL be a mess for now. Please remove any plants that you value, move your front door mats and anything personal around your exterior. Helicon will not be responsible for your belongings.

Tuesday, Nov. 17th, between 2-4pm, our engineer and sinkhole crew (Helicon) will be on the property at the gazebo to answer all your questions and concerns. Please check our bulletin boards for weekly updates to the schedule.

If you see cones in front of your building, Please move your cars to the opposite side of the lot as the Grout trucks will need ample space.

Thank you for your patience as we work through this.
