Dear Moorings Owner,

The Moorings community has transitioned to a key fob system for entry to our swimming pool. We are currently assigning one (1) key fob to each unit at no cost to owners.

Your tenant is entitled to use the amenities and therefore be given a fob for their use. However, you as the owner and landlord are responsible for the key fob. Before this fob is issued to your tenant, we require that you sign this letter agreeing to your tenant receiving the key fob with the knowledge that you as the owner are ultimately responsible for its use and any replacement.

Only one key fob will be given to each unit at no charge and the replacement cost is \$50 should it be lost, misplaced, or destroyed.

Please complete this portion, sign, and return to the Moorings address or email at themooringscondo@gmail.com ASAP so that your tenant may have access to our pool.

I agree that my tenant may be provided with the key fob to gain entrance to the Moorings swimming pool. I agree to take responsibility for its use and pay \$50 for any replacement cost.

(Revised/Approved 2/2019)

(Section 1 of 2)

INTRODUCTION

The Moorings Condominium Association, Inc. (hereinafter referred to as "the Association") welcomes you. Because of the size of our community, rules and regulations are needed to keep things running smoothly, to ensure a pleasant, comfortable and enjoyable living experience in our homes, and to maintain standards that will more likely result in appreciation of the value of our homes in the future. The purpose of these Rules and Regulations is to achieve and maintain these goals, and to comply with our Association Declarations and By-Laws.

All approvals required within these Rules and Regulations must be sought reasonably **in advance** by Unit Owner(s) utilizing the process, procedures and forms set forth herein. All Forms referenced and presented herein are available on the property manager's resident login or may be obtained from a Board Member. Approval will not be granted in any circumstance where the Unit Owner(s), their Residents or approved Tenants are in violation of Association Rules and Regulations, including the existence of past-due Association Fees or any other unpaid obligations to the Association. Any Approval given under these Rules and Regulations by the Association shall be revocable, with such revocation provided to the Unit Owner in writing.

Unit Owners are fully-responsible for their own conduct and compliance with these Rules and Regulations as well as the conduct and compliance of all of their Residents, Tenants and Visitors, whether in their Unit or on any Association common areas. Unit Owners are responsible for informing Tenants, Residents and Visitors of these Rules and Regulations.

The Board, on behalf of the Association retains the services of a professional Management Company to handle the day-to-day operations of the Association, including enforcement of these Rules and Regulations. From time to time, it may be necessary to amend these Rules and Regulations. This will be done only after a proper review by the Board of Directors and in accordance with the By-Laws of the Association.

Picture 36 - Soils Eroding Away from Structures

6.0 Conclusion

Within a reasonable degree of professional probability, based on previously provided reports and on the information gathered during our inspection and analysis, a majority of the buildings located at the Moorings of Pinellas County property **DO NOT MEET** the criteria for "Structural Damage" as defined by Florida Statute §627.706 (2) (k) (SB 408). Specifically, based on the collective FES results from SDI and SEI, as well as the damages observed that range from, means of egress, serviceability and/or unsafe conditions, **critterion #1 of "Structural Damage" has been met at Buildings 1, 2, 4, 7, 9, 10, 11 and 12.** Additionally, as access to interior units was limited, addition inspections are necessary at building 3 to evaluate the existence of "Structural Damage" in this area. Lastly, dangerous conditions exist at buildings 9-12. Specifically, undermining of the slabs and porches were identified at buildings 10 and 12, creating a loss of soil support at these locations, leading to slabs and stairs separating from the structure and partial collapse of primary structural elements. Additionally, buildings 9-12 lack the necessary support of the ground due to this failure of the sea wall and presence of sinkhole activity. Therefore, **critterion #4 of "Structural Damage" has been met for buildings 9-12.** See Appendix B for a summary of the FES results, the damages identified at each of the structures and SEI's conclusion for each of the structures.

Considering that sinkhole activity was identified at the above referenced structures and is a contributing cause of "Structural Damage", a sinkhole loss has occurred at buildings 1, 2, 4, 7, 9, 10, 11 and 12.

7.0 Repair Recommendations

In order to stabilize the land and buildings and repair the foundations, the following is recommended:

7.1 Seawall Repair

The failing seawall near buildings 9-12 shall be addressed. Failure to do so will not effectively stabilize the land and building. Additional investigation is necessary to determine the proper repair protocol. The scope of the investigation may include but is not limited to: GPR, determination of sheet pile embedment depth, tie-back locations and properties, etc.

**RE: The Moorings of Pinellas County Condominium Association, Inc.
Continued Safety Concerns**

To Whom It May Concern:

Our office represents the members and owners of the Moorings regarding the insurance claim pending with its insurer, American Coastal Insurance Company. While American Coastal is disputing coverage for the damages and conditions at the property, it concedes that sinkhole activity was found at several drilling locations which we believe may have created unstable, potentially dangerous conditions for residents and their visitors.

While the Moorings Board and our office have advised several times that these conditions may pose a threat to safety and welfare, I am being told that individuals refuse to discontinue their access to the balconies in Building 10. Until we receive a formal clearance from the appropriate engineers and contractors, it is not fully possible for us to gauge the threat or lack of support the sinkhole activity may be causing. **As such, we must respectfully demand that the unit owners, residents, visitors, vendors and all persons not be permitted on the balconies of Building 10, the porches of Building 10, the area behind Building 10, and the dock behind Building 10** without prior clearance from the engineer of record. Please be advised, we cannot guarantee the safety of these building components.

If you happen to witness conditions that appear unsafe, or appear to be changing, please seek immediate protection, and notify appropriate emergency responders via 911. The Moorings takes its duty to protect its owners and residents, as well as their visitors very seriously. We must work collectively until we are able to move the insurance claim to its ultimate resolution.

Our law firm phone is answered 24/7. If you see anything at the Moorings that appears unstable, please contact us immediately. I remain available to answer any questions or concerns.

Best regards.

Very truly yours,

Ted A. Corless, Esquire
